

Traffic Safety Enforcement Program

The Highway Safety Office has three law enforcement program managers that cover specific regions of the state and three Law Enforcement Liaisons (LEL) who cover the Kansas City, St. Louis and Springfield areas. Below is a map that outlines the areas of responsibility for each program manager. These managers are responsible for the statewide coordination of state, county, and local law enforcement projects. The evidence-based traffic safety enforcement program is focused on preventing traffic violations, crashes, and crash fatalities and injuries in areas of most risk for such incidents. It involves an array of enforcement activities throughout the fiscal year.

This section includes: Problem Identification, Implementation Plan and Performance Measures pertaining to the Evidence-Based Traffic Safety Enforcement Program.
